Farmers' Institute.

The Powell County Farmers' Institute will be in session at Stanton Wednesday, August 31, and Thursday, September 1st. The programme will be full of interest. There will be some local speakers on hand as well as the regular instructors. Every farmer in in the county and every citizen interested in farming should attend this Institute as much valuable information will be given out.

Married at Mt. Sterling.

John W. Williams and Mrs. Sallie Wells, of Stanton, were married at the residence of John Winn in Mt. Sterling Sunday morning, Eld. H. D. Clark officiating. It is the second venture of both of the parties. Mr. Williams is the wealthiest man in the county, and is a large land owner in both Clark and Montgomery counties.

Killed in Breathitt.

John Abner, a noted Breathitt county feudist, was shot to death on the streets of Jackson Tuesday night by unidentified assassins. Bloodhounds sent from Lexington were unable to pick up the trail, the surroundings having been trampled by many people before the dogs arrived.

The protracted meeting was not held at Powell's Valley as reported in our last issue to be in progress. Pastor Turpin was sick and could not come at this time. The meeting will be held later this fall.

We Do Not Recommend

Sutherland's Eagle Eye Save for anything but the eyes. It is a speedy and harmless cure for granulated lids, scrofulous sore eyes, styes, weak eyes and dimness of vision. Sold everywhere 25c.

A Good Officer.

Mr. A. T. Pettitt is making one of the best officers as Police Clay City ever had. He plays no favorites, every one must obey the law the same way. He is brave and fearless, sees that all must pay the fines imposed upon them or work them out in due time on the street. True enough he has courted the displeasure of some people in town, possibly, but if so it has been in the performance of what he thought was his duty. There is less Sunday drink in Clay City than formerly; fewer minors are seen drunk, and conditions where no better, are more vigorously prosecuted which means more fines for the city and in the end that they will be stopped. He deserves the united support of all law abiding citizens of the town and this we believe he has. Such officers as he and Police Judge Fletcher, and Mayor Loving together with our splendid council means at the end of their term of office a completely better governed city.

The Rev. Robert N. Bush was taken sick Monday at Jackson's Chapel where he was engaged in a protracted meeting and had to return home, leaving the meeting in charge of the Rev. Owsley who was assisting him.

John K. Hendrick, of Paducah, has formally announced his candidacy for the Democratic nomination for Governor of Kentucky.

J. W. Lyle found a set of lower plate false teeth in this city Tuesday. Owner can get same by calling on Mr. Lyle.

The Swann-Day Lumber Company store is closed up this week invoicing.

BYRD'S PLATFORM.

Following is the platform of the Mt. Sterling Democratic convention of which the Hon. A. Floyd Byrd is the official standard bearer:

1st. We indict the present Republican state administration with the charge of hypocrisy, inefficiency and extravagance.

2nd. We charge the present national administration with being weak and vacillating in its character, and with a betrayal of the pledge of tariff revision and promise of other reforms which constituted its plea for the support of the voters before the election.

3rd. We favor an amendment to the Constitution providing for an income tax.

4th. We favor such an amendment to the Federal Constitution as will permit United States senators to be elected by a direct vote of the people.

5th. We favor retrenchment, economy and reform in all branches and departments of the national government.

6th. We are opposed to a system of tariff that simply robs the consumer under the form of law and we demand a revision of the tariff laws by considering the rights of the people rather than the behests of the PRIVILEGED INTERESTS, so that no one can say to any schedule as did the President who approved and signed the present law when he said, "The Woelen Schedule is Indefensible".

7th. We insist that the Federal government shall act in accord and harmony with the policy of the state government in matters that are local to the state or different communities of the state and that when any district or territory in the state has adopted the local option law as a part of its local policy the Federal authorities should refuse to grant a government license to any person to engage in the liquor traffic in such territory, and Congress should by law prohibit interstate shipments of intoxicating liquors to be made into such territory.

8th. We are in hearty accord with the national arousal and awakening of the public conscience and we assert that absolute fidelity to pledges and promises, with reference to personal matters as well as legislative and political questions, is a quality that should belong to every man who seeks public office.

9th. We condemn despotism whenever, wherever and in whomsoever it appears and confidently submit that no man who believes or whose political sponsors believe that Speaker Cannon is "The Greatest Man in the World" does not deserve to be and cannot be elected to Congress from this district.

10th. We feel that justice to our state demands that Kentucky should receive her full quota of the proceeds from the sale of public domain for the purpose of educating our children. We therefore pledge the nominee of this convention to the introduction and advocacy of a bill in

Congress granting to this state her proportionate share of funds realized from the sale of public lands for educational purposes.

11th. On other live questions that will come before the next congress we pledge the candidate presented by this convention to stand for and to valiantly support:

(a) The proposition to take the appointment to the Rules Committee and all other committees away from the Speaker and lodge it in the House, thereby making the latter a self-governing body.

(b) A revision of the tariff on the principle that custom duties exacted by the United States should be for revenue only and not for the purpose of piling up fortunes for the great vested interests and this revenue thus secured should only be sufficient to administer the government in honesty and economy. All articles which are protected by the tariff and are monopolized and controlled by the trusts should be placed on the free list.

(c) A law providing for the valuation of the physical property of railways and authorizing the Inter-State Commerce Commission to regulate rates according to such physical valuation.

(d) The proposition to authorize the Inter-State Commerce Commission to limit the issuance of stocks and bond of railways to the actual investment made.

(e) The retention by the Federal Government of the undisposed of mineral deposits and water power sites on public lands belonging to the United States, to be leased and not sold, thereby making them a source of perpetual revenue to the government.

(f) On all questions, the side of the rights of mankind, as against the side of the rights of property; and we pledge that this shall be the test and guide of our candidate's official conduct.

It is really amusing to see how many people bite at the Blood Hound fraud. "Capt. Mulligan and his dogs," of Lexington, are called out every day almost, but they never caught anything but the suckers who send for them.

Wesley Barnes and two little boys of Miller's Creek, are visiting Mr. Barnes' father, A. C. Barnes, near this city.

Old corn is still plentiful in some parts of the county but is selling readily at \$3.50 per barrel.

A Profitable Field.

Mr. Robert Hudson, who lives three miles from town, on the Louisville pike, says it pays to raise wheat. To a Republican reporter he said: "I had in twelve acres of wheat at my home place this year and it fattened 34 hogs for me, which I sold to Meyers Bros. at 10 cents a pound, four of which were shown at the Mercer county fair, taking one blue and two red ribbons, and besides these hogs it fattened all the turkeys between the Louisville and Warwick pikes. Who can beat that?"—Harrodsburg Republican.

Mr. Wm. Johnson while driving across the Waltersville bridge Monday met Elder Albert Easter who stopped for a few remarks. The mules attached to Mr. Johnson's wagon got scared at something and ran into Elder Easter's buggy, throwing him from his vehicle and completely demolishing it, but Bro. Easter was uninjured.

What the Republicans need is harmony, and they can't get it. What the Democrats need is cash, and they can't get enough to pay office expenses, while the Republicans have trust-money to burn.

200 Republicans in Clark county declare openly that they will under no circumstances support Langley. That's going some, but considering numbers, Estlin can beat it, says the Herald.

A New York girl cracked her jaw while chewing gum the other day. Only one woman out of every 1,245,887, does that however. So the gum chewing will go right along.

The road to success in business is paved with good advertisements.

Passing of Bryan.

It now looks as if Mr. Bryan had been eliminated from the leadership of the National Democracy. When a man's party in his own state turns him down it generally means the end of his national leadership. The recent Democratic State Convention in Nebraska, threw Bryan entirely outside of the breastworks because of his prohibition views, and we like him only the better for that. While Mr. Bryan has not been able to elect himself to any office for a great many years, he has, nevertheless, made an impression on the pages of history. He has forced the Republican party to more Democratic principles and has compelled them to lead a better and somewhat less unholy life. He has been the leading instrument in bringing about the nomination of Senators by the people in many states. The income tax laws, the regulation of railroads and many other reform measures, were championed by him and adopted by the Republican party later.

It is a fact that Bryan had withdrawn his grasp the Presidential office in 1896. For one full hour that great opportunity stood knocking at his door, but he failed to grasp it and it fled, it seems forever. When he was nominated in 1896 the convention proceeded to nominate a Vice-President and on the fourth ballot John R. McLean, of the Cincinnati Enquirer was within a few votes of the Vice-Presidential nomination. If Mr. Bryan had permitted the nomination of McLean, who was worth \$50,000,000 00 at that time, it is said McLean would freely have given \$2,000,000 00 of his own money and would have raised one to two million more, this would have carried Bryan into the White House on high tide. The lack of which defeated him. At the commencement of the 5th ballot of the Democratic convention Bryan gave it out that he would not accept McLean as a running mate, and that settled it, when Sewall, of Maine, was nominated, who was a millstone on the Democratic ticket, and while also a millionaire, he was a "tough wad" too, thus sacrificing an opportunity of great importance to the Democratic party.

Promisory John.

If some of the tales told in the meeting of the Tenth District Democrats are true, the present Representative has seen the Chicago platform tariff plank and gone it two or three better. A Government turnpike from Mt. Sterling to the Virginia line, a pension to all Confederate soldiers, an increase to \$1 a day in all Federal pensions, money in lieu of the public lands not allotted to them for all mountaineers with Indian blood in their veins, and the repeal of the Kentucky dog tax law by congressional enactment, are cited as instances of Mr. Langley's intended beneficences to his constituents.

The mere recital of them is to pay tribute to a more than generous nature. To say that Mr. Langley is the most promising politician in Kentucky is but to do him justice. To predict that

he will be one of the most finished politicians in Kentucky on the 9th of next November, calls for no gift of augury. The present is an off year for practice of the Republican art of fooling all the people all of the time, as Uncle Joe Cannon can bear witness.

But for all that we'd like to see Mr. Langley taken care of. A gentleman of his ability would make an excellent keeper of the records of the Ananias Club.—Louisville Times.

Another Trust Formed.

Twenty-two cotton manufacturing companies have turned themselves into a trust known as the International Cotton Mills Corporation, and capitalized at \$20,000,000. These companies at present manufacture three thousand varieties of fabric, employ ten thousand operators, and own ten thousand acres of land. Their annual sales are estimated at \$18,000,000. As if to forestall criticism, the new president announces that the twenty-two companies have not been in competition. Time and politics will probably determine whether this is to be a good trust or a bad one.

Following close on the announcement of the formation of the cotton trust comes word of a baker's trust, the new Federal Biscuit Company, a \$30,000,000 affair. From the newspapers we learn that "it is unofficially announced that the new company was formed to create a virtual monopoly of the baking business of the United States without rendering the promoters liable to the Sherman Anti-trust act." This sounds like an interesting experiment.

Compare the Platforms.

On the first page today we publish the platform adopted by the Democrats at the Congressional convention at Mt. Sterling upon which the Hon. A. Floyd Byrd will make the race for Congress, and upon which the Times believes he will be elected. Read this platform and see if you can find anything wrong with it; see if you can find a single plank in it that is not worthy the endorsement of every moral citizen in the district. If you find it so, and you believe as you must believe, that Mr. Byrd will carry out this platform with his support in Congress, if elected, then why not give him your vote in November?

Compare this platform with the one adopted by the Republicans in convention upon which Langley stands, and see which in your honest judgment is catering to the best interests of the majority of the people. You are bound to decide in favor of Byrd. Then lay aside all prejudice and vote for the man that stands for your best interests instead of the interests of the moneyed kings as does John W. Langley. Vote for Byrd.

Last year Senator Gore, the blind statesman of Oklahoma, blocked an attempt to buy \$160,000,000 of worth of Indian mineral land for \$30,000,000, of which \$3,000,000 were to go as "attorney's fees," by stating in the open Senate that he had been approached with a bribe. Recently before the special House Investigating Committee, he added that Jacob L. Hamon, who, he says, acted as intermediary, informed him that Vice-President Sherman was interested in the proposition and explained the Vice-President's interest by adding, "this is lots of money,

you see." Two of Senator Gore's clerks confirmed parts of his testimony; and Congressman Creaiger testified that he too was offered an "interest." It will be interesting to see whether the Senate will not permit its own Investigating Committee to proceed in the matter.

The postmastership at Rice Station is furnishing some amusement just now, and bids fair to work to the disadvantage of Langley's cause. The applicants for the office, which is vacant by reason of the death of W. L. Rice, are being indorsed by the Republican County Committee, and the "Regulars", and the "Insurgent" wing, respectively, so to speak. Langley has promised his indorsement to both sides, it seems, and either way the cat jumps it looks like the promising Langley will get scratched.—East-ill Herald.

The Payne-Aldrich law is not bringing in sufficient revenue to run the government, reports from the Republican press bureaus to the contrary notwithstanding. The tariff law, the corporation tax, internal revenue receipts, and all other sources of revenue, combined, failed by \$3,169,970.15 of producing sufficient funds to run the government during the first 17 days of August.

Mr. Roosevelt, it is said, has received 2,034 invitations to speak between this time and November 1st. Mr. Roosevelt is, perhaps, the only living American who could make that many speeches.

An exchange says: "Mr. Roosevelt intends to take a more prominent part in politics." He cannot do that very well unless he undertakes to be an entire show.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

Nervous Prostration

"I had a general breakdown. A gentleman advised Dr. Miles' Nervine, and I noted an improvement after a few doses, and two bottles gave me entire relief."

WM. R. BURKHARDT,
353 Rawling St., Washington C. H. O.
When the nervous system is weakened, one after another of the organs which they control become inactive, and a general breakdown eventually follows. It may be either the stomach, heart, lungs or kidneys that is first affected.

Dr. Miles' Nervine makes weak nerves strong, by its soothing and strengthening influence upon the nervous system.

The first bottle will benefit; if not, the druggist will return your money.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. **FOR KIDNEY, LIVER AND STOMACH TROUBLE** It is the best medicine ever sold over a druggist's counter.

STANTON COLLEGE ANNOUNCEMENTS

FOR FALL TERM OF 1910.
TERM OPENS SEPTEMBER 5TH IN ALL DEPARTMENTS.
HOLIDAY VACATION BEGINS DECEMBER 24TH.

NEW DEPARTMENT.

A new Department will be added to our work this year. Heretofore we have not carried the Department of Physics because there was no demand for it. This Department will be opened to our students at the beginning of the Fall Term. Funds have been collected for a Physical Laboratory and our instruments will be installed as they are needed. A competent instructor will have charge of this new work.

NEW TUITION REGULATION.

Students of this college who have successfully passed the requirements of the eighth grade (Common School Department) are entitled to free tuition in the Academy, provided that they reside in Powell county and that a registration fee of \$5 00 is paid at the time of entrance. But hereafter, such students as desire to receive help from the county must pass the examination given in January and May by the County Superintendent for those who desire to be county beneficiaries in the Academy. All students from other schools in the county may become Beneficiaries in the Academy by passing either of these examinations.

Students residing in other counties and those in this county who do not care to enter as beneficiaries under our regulations with the County Board of Education will be charged a uniform rate of \$2.00 a month in the Academy. Students carrying college studies will pay \$2 50 a month according to prospectus.

OTHER REGULATIONS.

All other regulations may be found in Stanton College Prospectus for 1909-1910. For information address,

Vital Washington News.

The American people will recall that Senator Henry Cabot Lodge's price investigating committee found that no part of the 58 per cent. increase in the cost of living in this country in the last 10 years was due to the tariff. Political economists all over the land were sorely puzzled at the report.

The phenomenon can now be explained. The report of the minority of the committee, recently published, shows that the Republicans made no serious attempt to ascertain whether the tariff was responsible or not. Listen to this extract from the minority report:

"In examining the witnesses we (the committee) scarcely touched upon the territory of the highly protected commodities."

Lodge, who helped frame the Payne-Aldrich bill and takes the position that the ultimate consumer is a myth, saw to it that the investigations were confined almost exclusively to foodstuffs and cotton, and to the production, distribution and cost to the consumer of wheat, corn, beef, mutton and hog products of which commodities the United States produces a large per cent. of the world's production, and which we export in enormous quantities. As to these articles it may be supposed that, when freed from the influence of trusts and monopolies, the tariff should not cut a large figure except that it increases the cost of their production.

Do you see the point, Mr. Consumer? Lodge had been assigned by Senator Aldrich to make a report, obviously for campaign purposes, which would absolve the tariff from all blame in connection with the awful increase in the cost of living under our system of excessive protection. Lodge evidently concluded that the safest way to accomplish this end would be to avoid asking any questions of witnesses concerning the advances in the prices of highly protected articles, such as the products of the sugar trust, the steel trust, the harvester trust and the lumber trust,

all of which contribute heavily to the Republican campaign fund.

The Lodge report gave fifteen reasons for increased prices, and found that the tariff was "no material factor." This report is being used by the men who voted for the Payne-Aldrich bill in the hope it will prevent them from being retired to private life.

Senators Johnson of Alabama, Clarke of Arkansas, and Smith of South Carolina, the minority members of the Lodge committee, find that the three substantial causes for increased prices are:

1. Tariff.
2. Trusts, combines and monopolies.
3. Increased money supply.

Owing to the tactics of the Republicans in avoiding highly protected articles, the minority members found themselves "without sufficient data to appportion the degree of responsibility between these three causes," but state "that the two first are the chief malefactors we have no doubt, and they are of our own creation or permission."

"Taft will no longer co-operate with Aldrich and Cannon, and Ballinger is to be forced out."

This is the gist of statements carried by the Associated Press, and obviously inspired by Republican managers. The information may be accepted as little more than a ruse. The Republican campaign managers played the same trick on the public in the last Presidential election. The rumor was quietly started that candidate Taft was hostile to Speaker Cannon. The inference was strong that Taft would be against Cannon as speaker. This false rumor unmistakably helped Taft in some insurgent districts.

Immediately after Taft was inaugurated an attempt was made to defeat Cannon as speaker. The combined Democrats and Insurgents would have accomplished this end had not President Taft used all of the resources at his command to perpetuate Cannon as speaker.

Taft is not likely to try to read Aldrich and Cannon out of the Republican party, because Aldrich and Cannon (and the special interests they represent) will not permit the President to have a re-nomination if he tries it. Mr. Taft knows which side his political bread is buttered on.

Furthermore, there is no reason for discord. Taft, Aldrich and Cannon, and Ballinger, too, are all working to the same end. Their views on big questions are harmonious.

It was only recently that Taft eulogized Aldrich to the skies and referred to "Uncle Joe" as being in the Abraham Lincoln class of statesman.

Taft, Aldrich and Cannon, and particularly Taft and Aldrich, can have no break. They must sink or swim together.

Roosevelt will not indorse Taft or the Payne-Aldrich law in the opinion of the writer. There has been no doubt in my mind on this point since March 4th, 1909, and I have repeatedly expressed the view in these dispatches. But though T. R. will not indorse Taft, he has promised to indorse Senator Henry Cabot Lodge of Massachusetts, who is notorious as a tool of Aldrich and

special senate representative of the tariff trusts, railroads and other New England corporate interests. To indorse Lodge is as bad as to indorse the Taft administration.

But I do not expect to hear of Roosevelt campaigning for such genuine progressives as LaFollette. Roosevelt is playing for the presidency, and is jealous of LaFollette's popularity.

At this stage Taft appears to stand a better chance of hauling down the next Republican presidential nomination than does T. R. This is because Taft stands right with the great and powerful corporate interests of the United States, and they control absolutely the Republican machine.

The action of the New York politicians in turning down Roosevelt as temporary chairman was a compliment to the ex-president. The men who opposed him are machine politicians and friends of Taft. They knew Roosevelt had made up his mind to refuse an indorsement of the Taft administration, and feared

to trust him as temporary chairman lest he take advantage of the opportunity to discredit the stand pat organization.

NEW IDEA MANURE SPREADER

FARMERS, ATTENTION!

This Manure Spreader is different from all others. Do not buy without first investigating the merits of the same. The exclusive features not found on other machines: Drawn with coupling pole; without a clutch or cog wheel. Can be heaped in loading, the same as a farm wagon. Guaranteed to pulverize all manure (notice the three chances).

This machine is built on a common sense principle of a farm wagon—hence is the simplest, most durable, lightest draft, lowest down (hence easy to load into) spreader on the market. Backed by ten years' experience, not an experiment. Ask for catalogue X.
